I-CAR ANNOUNCES GOLD CLASS FOR ACCIDENT REPAIR CENTRE DANDENONG

I-CAR Australia Gold Class Coordinator Gary Wood today announced that ARCD in Dandenong, Victoria has been awarded the prestigious I-CAR Gold Class Collision status.

“The team at ARCD entered the Road to Gold program twelve months ago in order to meet the Holden requirements for their approved repairer network. They have been regular participants in the I-CAR online Virtual Classroom courses and training organised through their paint supplier, PPG. It is great to see another Holden repairer gain the Gold Class accreditation and continue to set high standards within the industry” said Mr Wood.

“ARCD REPAIR CENTRE PTY LTD are delighted to have successfully obtained the I-CAR “Gold” shop rating. We have found the process both informative and challenging due to the changing vehicle structures, metals and repair requirements.

The team of people at I-CAR, from the office staff to the instructors, have been helpful, supportive and a wealth of knowledge. We as a team found the training a great team building exercise. It has been educating, refreshing and extremely rewarding both individually and as a company to achieve this accreditation.

Thanks I-CAR, we will work together to maintain our current level GOLD” explained Theo Pagiamtzis.

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.
