I-CAR ANNOUNCES GOLD CLASS FOR FIX AUTO NORTHERN BEACHES

I-CAR Australia is pleased to announce today that Fix Auto Northern Beaches of Cromer NSW has been awarded the prestigious I-CAR Gold Class Collision status.

“The learning experience with I-CAR was a very positive one and complements the fundamental changes we have been through and continue to go through since joining the Fix Auto Network. Both I-CAR and Fix Auto have the same vision for the highest levels of knowledge, skill and competence so it’s a perfect fit for our business in this new chapter for us.

Making sure the productive team had sufficient time to be able to study and learn is always a challenge in small business. The flexibility around virtual classrooms’ timing was very useful, we would arrange for training out of our production hours as much as possible, get the training completed and then get some refreshments in for the team and make a social occasion out of it afterwards. The learning activities themselves were also a real opportunity for the team to bond through learning together and the excuse for a couple of beers and something to eat after work is always nice!” Mr. Jason Walsh, owner of Fix Auto Northern Beaches conveyed.

“One of the major benefits to us was our technical partnership with Glasurit, no doubt this was enhanced because of our affiliation with Fix Auto. As a strategic partner of our network, they are always on hand to support our business and this was no exception. They are always available to come to us, so we minimise downtime for the painters but still get to develop our capabilities.

The best feedback came from the structural panel beater after the welding course, realising how crucial it was to be up-to-date and trained in weld techniques as they evolve with the ever-changing materials of the vehicles.”

By achieving I-CAR Gold Class, Fix Auto Northern Beaches which is also part of the Suncorp Insurance repairer network, join a growing number of repairers offering their customers the peace of mind when entrusting their vehicle to Gold Class teams with the required skills and knowledge to return it to its pre-accident condition, quickly, safely and at the highest level of quality.

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety, and efficiency of auto collision repair for the ultimate benefit of the consumer.
