I-CAR ANNOUNCES GOLD CLASS FOR POWER SMASH REPAIRS NSW

I-CAR Australia is pleased to announce today that Power Smash Repairs has been awarded the prestigious I-CAR Gold Class Collision status.

“We decided to enter the I-CAR Road to Gold program because we thought it would be a good way to maintain and further our skills with the latest technologies that are ever changing in the automotive industry. The online virtual training is an excellent option especially as we are located in a rural area, where the closest major cities are an hour’s drive away.

The experience was very good, and the whole process was very easy, from online enrolment to the online virtual training. It also helped when all training was able to be done from the comfort of our own workshop and not having to travel distances. The staff particularly enjoyed learning about the new technologies that are coming out on cars such as Steel Strength and the structure of them. Our Refinishers were also involved in the program, receiving product specific training from Glasurit that worked towards our Gold Class certification.” Stated Tommy and Joe Martinovic, directors of Power Smash Repairs.

Power Smash Repairs is located in Mittagong NSW and is part of the Suncorp Insurance Repairer Network. Congratulations to the entire team for joining the growing number of businesses that have recognised the benefits of regular training. They have proven that location isn’t a barrier when it comes to professional development for their team. Participation in online virtual training and working with an I-CAR Industry Training Alliance partner, allowed them to complete the role relevant training required for the Gold Class accreditation. Power Smash Repairs’ commitment to professional development will ensure safety and quality for all their customers

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.
