

In order to provide a fair and transparent pricing structure for all between I-CAR Australia and its Corporate members, the following costing has been formulated.

Please see the following pricing structure guidelines:

- a) If MSO is a member and book an exclusive training session for its members/branches, and the class is promoted and filled to the minimum number of students, then the benefit of membership pricing will be passed on to all.
- b) If minimum numbers (10 per session for classroom programs, 6 per session for welding preparation and 4 per session for welding certification programs) cannot be met when organized by the MSO, then I-CAR will be given the opportunity to fill the remainder of places with students outside this organization.
- c) If the MSO's members/staff are attending sessions that are not booked and organized by the MSO directly and if the shop is not an individual member of I-CAR or I-CAR Gold Class ©, then full retail pricing of those programs will be applied.
- d) Invoicing – In order to receive any special pricing or incentives passed onto an MSO member, the invoice will be made payable only by the MSO of whom is a member. No invoices will be made out to individual branches or locations in these circumstances.
